INDEPENDENT AUDITORS' REPORT

Board of Directors
Shelbyville Power, Water and Sewerage Systems
Shelbyville, Tennessee

Report on the Financial Statements

We have audited the accompanying financial statements of Shelbyville Power, Water and Sewerage Systems of Shelbyville, Tennessee, as of and for the year ended June 30, 2014, and related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Shelbyville Power, Water and Sewerage Systems of the City of Shelbyville, Tennessee, as of June 30, 2014 and the changes in financial position, and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 10 to the financial statements, in 2014, the Systems adopted new accounting guidance, *GASB Statement No. 65, Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Shelbyville Power, Water and Sewerage Systems, and do not purport to, and do not, present fairly the financial position of the City of Shelbyville, Tennessee, as of June 30, 2014, the changes in its financial position, or, where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages A-1 through A-7 and the schedule of funding progress on page 16 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Shelbyville Power, Water & Sewerage Systems' basic financial statements as a whole. The introductory section, financial schedules, and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements.

The financial schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the financial schedules are fairly stated in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subject to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2014, on our consideration of Shelbyville Power, Water & Sewerage Systems' internal control over financial reporting and on our tests of its compliance with certain provision of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Shelbyville Power, Water & Sewerage Systems' internal control over financial reporting and compliance.

October 28, 2014

Shelbyville Power, Water & Sewerage Systems

Management's Discussion and Analysis

The Shelbyville Power, Water & Sewerage System (the Systems) is composed of three separate divisions that are financially accounted for on a separate basis. All divisions are reportable to the General Manager. The General Manager reports to a five-member board that is appointed by the Mayor and the City Council of the City of Shelbyville, TN. The following is a discussion and overview of the financial activities of the system for fiscal year ending June 30, 2014 as compared to fiscal year ending June 30, 2013.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the Systems' exceeded their liabilities at the close of the most recent fiscal year by \$75,990,706. Of this amount, \$29,710,316 may be used to meet the Systems' ongoing obligations to suppliers and creditors.
- The Systems' total net position increased by \$3,206,827.

USING THIS ANNUAL REPORT

This discussion and analysis is intended to serve as an introduction to the Systems' basic financial statements. This annual report consists of three components: Management's Discussion and Analysis; the Financial Statements; and Notes to the Financial Statements. The notes explain in more detail some of the information in the Financial Statements. This report also contains other required supplementary information in addition to the basic financial statements themselves.

Overview of the Financial Statements

The financial statements of the Systems' report information about the Systems' using accounting methods similar to those used by private sector companies. These statements offer short-term (current) and long-term (noncurrent) financial information about its activities. The *Statement of Net Position* includes all of the Systems' assets, deferred outflows of resources, and liabilities and provides information about the nature and amounts of investments in resources (assets) and obligations to creditors (liabilities). It also provides the basis for computing operating results, evaluating the capital structure of the Systems' and assessing the liquidity and financial flexibility of the Systems'. All of the current year's revenues and expenses are accounted for in the *Statement of Revenues, Expenses, and Changes in Net Position*. This statement measures the success of the Systems' operations over the past year, and can be used to determine whether the Systems' have successfully recovered its costs through user fees and other charges, and to assess its profitability, and credit worthiness. The final required financial statement is the *Statement of Cash Flows*. The primary purpose of this statement is to provide information about the Systems' cash receipts, cash payments, and net changes in cash resulting from operations, investing, and capital and non-capital financing activities. It also provides information regarding sources of cash, uses of cash, and the change in the cash balance during the reporting period.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

Shelbyville Power, Water & Sewerage Systems

Management's Discussion and Analysis

Other Information

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information as listed in the table of contents.

SYSTEM WIDE FINANCIAL ANALYSIS

Statement of Net Position

The statement of net position is very solid. The plant is being well maintained and improved based on needs forecast well into the future. Debt is being conservatively managed with debt service coverage leverage ratios that are more than adequate. Cash reserves are more than adequate for all systems.

The Systems' Net Position (as of June 30,)

	2014	2013 (restated)
Capital assets	\$ 73,207,244	\$ 72,849,651
Current and other assets	35,992,782	33,435,244
Total assets	109,200,026	106,284,895
Deferred outflows of resources	241,674	258,534
Long-term liabilities	27,566,133	28,844,892
Other liabilities	5,884,861	4,914,658
Total liabilities	33,450,994	33,759,550
Net position:		
Net investment in capital assets	45,465,179	44,736,375
Restricted	815,211	829,870
Unrestricted	29,710,316	27,217,634
Total net position	\$ 75,990,706	\$ 72,783,879

Shelbyville Power, Water & Sewerage Systems

Management's Discussion and Analysis

Power System

Total power assets went from \$36,633,220 fiscal year ending June 30, 2013 to \$38,974,726 fiscal year ending June 30, 2014. Current assets increased from \$18,282,331 to \$20,655,002. Plant, net of accumulated depreciation, decreased from \$17,968,528 to \$17,941,851. Other assets increased from \$365,926 to \$377,873.

Total power liabilities increased from \$4,646,855 to \$4,732,148. Current liabilities increased from \$4,134,032 to \$4,194,081. Long-term liabilities increased from \$512,823 to \$538,067.

Water System (restated)

Total water system assets decreased from \$23,314,698 to \$23,094,312. Current assets increased from \$7,126,470 to \$7,141,909. Plant, net of accumulated depreciation, decreased from \$15,204,928 to \$14,963,054.

Deferred outflow of resources decreased from \$258,534 to 241,674.

Total liabilities decreased from \$3,628,221 to \$3,455,483. Long-term liabilities decreased from \$3,222,564 to \$2,973,002.

Sewer System (restated)

Total sewer system assets increased from \$46,336,977 to \$47,130,988. Current assets increased from \$6,557,526 to \$6,732,118. Plant, net of accumulated depreciation, increased from \$39,676,195 to \$40,302,339.

Total liabilities decreased from \$25,484,474 to \$25,263,363. Long-term liabilities decreased from \$25,109,505 to \$24,055,064.

Statement of Revenues, Expenses and Change in Net Position

The statement of revenues, expenses and changes in net position for each of the three divisions indicates healthy financial management and what we think is the appropriate balance between the spending necessary to deliver our services to the customer versus holding costs, and therefore rates, as low as practically possible. We are at or above peer level with respect to margin, efficiency and operating ratios.

Shelbyville Power, Water & Sewerage Systems

Management's Discussion and Analysis

The Systems' Changes in Net Position

(for the year ended June 30,)

	2014	2013 (restated)

Charges for services	\$ 42,808,699	\$ 41,344,426
Other operating income	755,182	712,495
Total operating revenues	43,563,881	42,056,921
Expenses:		
Purchased power	27,999,785	27,126,694
Operational expenses	7,152,364	6,566,086
Maintenance expenses	2,080,610	2,041,258
Depreciation and amortization	2,343,186	2,263,493
Total operating expenses	39,575,945	37,997,531
Operating income	3,987,936	4,059,390
Nonoperating revenues (expenses):		
Interest income	52,732	76,288
Interest expense	(380,392)	(243,260)
Other income (expense)	(3,510)	(32,758)
	(331,170)	(199,730)
Income before capital contributions	3,656,766	3,859,660
Transfer to City of Shelbyville	(641,158)	(594,687)
Capital contributions	191,219	209,934
Change in net position	3,206,827	3,474,907
Net position, beginning	72,783,879	69,308,972
Net position, ending	\$ 75,990,706	\$ 72,783,879

Power System

Income before capital contributions for the Power System decreased from \$2,765,224 in fiscal year ending 2013 to \$2,897,371 in fiscal year ending 2014. Total operating revenue increased from \$34,231,008 to \$35,626,403. This is a function of weather, growth in our customer base, rate increases, and unbilled revenue. Operational and maintenance expenses increased from \$3,489,853 in 2013 to \$3,938,652 in 2014. Other expense decreased from \$32,758 to \$3,510. Interest expense on customer deposits increased from \$4,216 to \$34,467.

Shelbyville Power, Water & Sewerage Systems

Management's Discussion and Analysis

Water System (restated)

Income (loss) before capital contributions decreased from \$2,850 to \$(83,908). Total operating revenue showed a decrease from \$3,894,154 to \$3,942,178. Operational and maintenance expenses increased from \$2,931,426 to \$3,071,542. Interest expense decreased from \$79,266 to \$74,280.

Sewer System (restated)

Income before capital contributions for the Sewer System went from \$1,091,586 in fiscal year ending 2013 to \$843,303 in fiscal year ending 2014. Sewer rates are based on water usage and bill at approximately 135% of the water rate. Operational and maintenance expenses showed an increase from \$2,186,065 to \$2,222,780. Interest expense increased from \$159,778 to \$271,645.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets – The Systems' investment in capital assets as of June 30, 2014 amounts to \$73,207,244 (net of accumulated depreciation). Depreciation charges for the year totaled \$2,352,593.

The Systems' Capital Assets (as of June 30,)

	2014	2013
Land and land rights	\$ 634,862	\$ 634,862
Structures and improvements	41,005,077	19,938,988
Distribution plant	68,975,519	66,871,343
Furniture and fixtures	938,400	889,483
Transportation equipment	2,524,121	2,320,529
Equipment	2,030,925	2,018,397
Construction in process	2,246,865	23,169,229
Less: Accumulated depreciation	(45,148,525)	(42,993,180)
	<u>\$ 73,207,244</u>	<u>\$ 72,849,651</u>

The total increase in the Systems' investment in capital assets for the current fiscal year was \$357,593 (.49%).

Additional information on the Systems' capital assets can be found in Note 3 of this report.

Shelbyville Power, Water & Sewerage Systems

Management's Discussion and Analysis

Notes and bonds payable and other obligations – At the end of the current fiscal year, the Systems had total outstanding debt for notes, bonds, and other obligations of \$28,292,746

The Systems' Notes and Bonds and Other Obligations Outstanding (as of June 30,)

	<u>2014</u>	<u>2013 (restated)</u>
Bonds payable	\$ 5,425,000	\$ 5,655,000
Less: deferred loss	<u>(5,687)</u>	<u>(5,929)</u>
	5,419,313	5,649,071
 Notes payable	 22,804,426	 22,963,176
 Net OPEB obligation	 <u>69,007</u>	 <u>55,521</u>
 Total outstanding debt	 <u><u>\$ 28,292,746</u></u>	 <u><u>\$ 28,667,768</u></u>

Power system notes, bonds and other obligation debt at fiscal yearend 2014 was \$23,002.

Water system notes, bonds and other obligation debt was \$3,153,002.

Sewer system notes, bonds and other obligation debt totaled \$25,116,742.

Additional information on the Systems' outstanding debt can be found in Note 4 of this report.

Rates

Power system rates increased along with TVA rates quarterly during the fiscal year.

Water system rates increased as of January 1, 2010.

Sewer system rates increased as of January 1, 2011.

REQUESTS FOR INFORMATION

This financial report is designed to provide our customers and creditors with a general overview of the Systems' finances and to demonstrate the Systems' accountability for the money it receives. If you have questions about this report or need additional financial information, contact the General Manager at Shelbyville Power, Water and Sewerage Systems, 308 South Main Street, Shelbyville, TN 37160.

SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Shelbyville Power, Water & Sewerage Systems (Systems), of the City of Shelbyville, Tennessee, have been prepared in conformity with generally accepted accounting principles as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standards-setting body for establishing governmental accounting and financial reporting principles. The more significant of the System's accounting policies are described below:

Reporting Entity

Shelbyville Power, Water & Sewerage Systems comprises three enterprise funds of the City of Shelbyville, Tennessee. Accordingly, the accompanying financial statements are included in the basic financial statements of the City of Shelbyville. The financial statements of Shelbyville Power, Water & Sewerage Systems encompass the operations of the Shelbyville Power System, the Shelbyville Water System, and the Shelbyville Sewerage System, which operate under a grant of power by Chapter 465 of the Private Acts of Tennessee of 1939 and the Amended Charter of the City of Shelbyville, Tennessee.

Fund Accounting

The Shelbyville Power, Water & Sewerage Systems, proprietary fund types, account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration.

Basis of Accounting

The Systems financial statements are reported using the economic resource measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America for governmental proprietary funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

Proprietary funds distinguish between **operating** and **non-operating** items. Operating revenues and expenses generally result from providing services and producing and delivering goods and services in connection with the fund's principal ongoing operations and consist primarily of charges to customers or departments, cost of sales and services, administrative expense and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Systems' policy to use restricted resources first, then unrestricted resources as they are needed.

Net Position

Net position is presented in following three components:

- Net investment in capital assets - This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of debt is included in the same net assets component as the unspent proceeds.

SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- Restricted - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted - This component of net position consists of all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Estimates

Preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash includes petty cash and amounts in demand deposits and money market accounts. Cash in excess of current requirements is invested in various interest-bearing accounts such as certificate of deposits with financial institutions and carried at cost. For purposes of the statement of cash flows all cash deposits and certificates of deposits with an original maturity of three months or less when acquired are considered to be cash equivalents.

Plant and Equipment

Capital assets of the Systems are recorded at historical cost. Depreciation of all exhaustible capital assets is charged as an expense against operations. Depreciation is computed using the straight-line method over estimated asset lives ranging from 3 to 50 years. Major additions and betterments are capitalized while expenditures for maintenance and repairs that do not add value to the asset or materially extend asset lives are charged to operations as incurred.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Net interest cost incurred due to the issuance of long-term debt during the construction of facilities is capitalized as part of the cost of such activities. Capitalized interest as of June 30, 2014 totaled \$223,571.

Inventory

Materials and supplies are stated at the lower of cost or market, with cost being determined on an average cost basis.

Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources until then. The Systems has one item that qualifies to be reported in this category. It is the deferred charge on bond refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred inflows of resources represent the acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources until that time. The Systems has no items that qualify to be reported in this category.

SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Tennessee Valley Authority (TVA) Energy Conservation Program

Shelbyville Power System is a fiscal intermediary for the TVA energy conservation program whereby loans are made to the System's customers to be used in connection with TVA's Residential Energy Services Program. Pursuant to the terms of an agreement with TVA, the energy conservation loans made to the System's customers are funded and guaranteed by TVA. These loans to customers are recorded as other assets, with the corresponding liability to TVA recorded as long-term debt.

Contributed Capital

The Systems have received federal and state grants to pay a portion of the costs of construction projects. The Water and Sewerage Systems record tap fees in excess of the cost of installation.

Compensated Absences

Accumulated unpaid vacation and sick pay amounts are accrued when benefits vest to employees and an unpaid liability is reflected as compensated absences payable.

Bond Discounts/Issuance Costs

Bond discounts costs are deferred and amortized over the term of the bonds using the straight-line method. Bond discounts are presented as a reduction of the face amount of bonds payable. Debt issuance costs are recorded as an expense in the period incurred.

Accounts Receivable

Customer utility accounts receivable of the Systems Funds is presented net of an allowance for uncollectible accounts of \$137,313. Bad debt expense for the current year is \$119,837. Accounts receivable are reported at the amount management expects to collect from outstanding balances. Differences between the amount due and the amount management expect to collect are reported in the results of operations of the year in which those differences are determined, with an offsetting entry to a valuation allowance for accounts receivable. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. The Systems use the reserve method, based upon a review of the current status of receivables and historical experience, in determining bad debt expense.

Unbilled Revenue

The Power System has unbilled revenue of \$1,113,331 as of June 30, 2014. The Water and Sewerage Systems have followed the practice of not recording unbilled revenue. The effect on the financial statements is not material.

Prepaid Items

Payments made to vendors that will benefit periods beyond the end of the current calendar year are recorded as prepaid items

Date of Management's Subsequent Review

Management has evaluated subsequent events through October 28, 2014, which is the date the financial statements were available to be issued.

SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 2 - CASH AND CASH EQUIVALENTS

The System is authorized by policy to invest funds that are not immediately needed in: United States Treasury Bills, Bonds and Notes, The State of Tennessee Local Government Investment Pool, most bonds issued by U.S. Government Agencies, bonds of commercial entities and other investments such as repurchase agreements and commercial paper.

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the System's deposits may not be returned to it. As of June 30, 2014, all deposits were collateralized. At June 30, 2014, the carrying amount of the Systems' deposits was \$30,207,012 and the amount of the banks balances was \$32,510,226. Of the banks balances, \$1,250,000 was covered by Federal depository insurance, and \$7,649,092 was collateralized with securities pledged that comply with statutes as acceptable collateral, and \$23,611,134 was collateralized by the banks participation in the Tennessee State Collateral Pool.

NOTE 3 - CAPITAL ASSETS

A summary of the changes in capital assets for the year ended June 30, 2014 is as follows:

SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 5 - PENSION PLAN AND DEFERRED COMPENSATION

The Systems' defined benefit plan, "Shelbyville Power, Water, & Sewerage Systems" provides retirement and death benefits to plan members and beneficiaries. The Systems joined the Central Service Association Pension Plan (CSA), a cost sharing multiple employer defined benefit pension plan for utility systems in 1997. Benefits are determined by a formula using the member's average monthly earnings and years of service. A reduced retirement benefit is available to vested members who are age 55 and have 10 years of service. The CSA issues a publicly available financial report that includes the financial statements and required supplementary information for CSA. That report can be obtained by writing to CSA, P. O. Box 3480, Tupelo, Mississippi 38803-3480.

The Systems are required to contribute at an actuarially determined rate. The contribution requirements of plan members are established and may be amended by CSA. If a participant becomes totally disabled before termination of employment, he is 100% vested. After completing 5 years of service, an employee is entitled to 100% of his accrued benefit. The plan is available to employees after attaining age 24½ and completing 6 months of service. Market value of assets as of October 1, 2013 totaled \$13,738,411. Contributions totaled \$987,654 for both employer and employee portions. The covered payroll totaled \$3,756,660.

The Systems also offer employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan was adopted in November 1997. Participation in the plan is optional for employees who may defer a portion of their salary until future years. Deferred compensation is not available to employees until termination, retirement, death, or financial hardship. The financial statements of the Section 457 plan are not reported in these financial statements since the Systems do not have any administrative involvement nor does it perform the investing function for the plan. The amounts deferred are held in trust for the exclusive benefit of employees and is not accessible by the Systems or their creditors. No employer contributions were made for the year ended June 30, 2014.

NOTE 6 - CONTINGENT LIABILITIES AND COMMITMENTS

Under its power contract, effective as of August 15, 1979, the System is committed to purchase its electric power from the Tennessee Valley Authority. This contract expired in 1999, and an amendment was signed to extend the contract. The amendment continues the contract for a term not less than 5 years, subject to termination by either party, with not less than five years written notice. The rates paid for the power and energy supplied by TVA shall be in accordance with the provisions of the Wholesale Power Rate – Schedule WS.

The Water system and four other water systems in the Upper Duck River area entered into an agreement with the Tennessee Valley Authority (TVA) whereby, commencing February 25, 1972, each water system began paying monthly to TVA five cents (\$.05) for each 1,000 gallons of water sold by it during the preceding month. The funds will go to return the Agencies' portion of the debt incurred to build the Normandy and Columbia reservoirs. Such payments shall be made regardless of the source of water sold and shall continue until a total of \$16,200,000 has been paid to TVA by the group. There has been no division of the total liability between the parties to the contract.

The Systems are party to legal proceedings which normally occur in governmental operations. According to management, any proceeding is unlikely to have a material adverse effect on the Systems, as a whole.

In connection with the Tennessee Valley Authority, the Power System makes loans to individuals wishing to make their homes more energy efficient. The System is required to use the funds, including repayments, in making further loans, or to reduce the advances to the system by TVA.

At June 30, 2014, Shelbyville, Power, Water and Sewerage Systems had several construction projects in process. The Systems take bids for these projects and awards construction contracts to various companies. See Note 9.

SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 7 - RISK MANAGEMENT

The Systems are exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Systems purchase commercial insurance for claims and for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB)

Beginning in August 2006, in addition to the pension benefits described in Note 5, the Systems allow employees to continue health insurance between the ages of 62 and 65. The employee will pay the premium except for a small amount contributed by the Systems that will be based on years of service. The Systems will fund the benefits on a pay-as-you-go basis. Payments in the amount of \$2,837 were made during the year ended June 30, 2014.

Plan Description

Shelbyville Power Water & Sewerage System sponsors a single-employer post retirement medical plan. The plan provides medical, prescription and death benefits to eligible retirees and their spouses.

Funding Policy

The System intends to continue its policy of funding OPEB liabilities on a pay-go basis and to not pre-fund any unfunded annual required contribution as determined under GASB 45.

Annual OPEB Cost and Net OPEB Obligation

The System's annual other post-retirement benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the System's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the System's net OPEB obligation.

Components of the Net OPEB Obligation

Annual Required Contribution	\$ 18,189
Interest on Net OPEB Obligation	2,498
Adjustment to Annual Required Contribution	<u>(3,030)</u>
Annual OPEB Cost (Expense)	17,657
Contributions Made	<u>(4,171)</u>
Increase in Net Obligation	<u><u>\$ 13,486</u></u>
Net OPEB Obligation (BOY)	\$ 55,521
Net OPEB Obligation (EOY)	\$ 69,007

SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 8 - OTHER POST-EMPLOYMENT BENEFITS (OPEB) (Continued)

The System's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2013-2014 is as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
6/30/2014	\$ 17,657	23.6%	\$ 69,007
6/30/2013	\$ 17,791	20.5%	\$ 55,521
6/30/2012	\$ 17,474	25.4%	\$ 41,373
6/30/2011	\$ 19,491	25.1%	\$ 28,333
6/30/2010	\$ 19,821	39.4%	\$ 13,739
6/30/2009	\$ 19,843	91.3%	\$ 1,724

Other Post-Retirement Benefits under GASB 45

Funded Status and Funding Progress

On July 1, 2014 the most recent actuarial valuation date, the plan was 0% funded. The actuarial accrued liability for benefits was \$152,076 and the actuarial value of assets was \$0 resulting in an unfunded actuarial accrued liability (UAAL) of \$152,076. The covered payroll (annual payroll of active employees covered by the plan) was \$3,816,719 and the ratio of the UAAL to the covered payroll was 3.99%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on substantive plan (the plan as understood by the employer and the plan members) and include the type of benefits provided at the time of each valuation and the historical pattern of sharing the benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2014 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.5% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan assets at the valuation date, and an annual healthcare cost trend rate of 8% initially, reduced by the decrements to an ultimate rate of 5% after three years. The actuarial value of assets was determined using a standard balanced portfolio expectation for retirement of plan asset returns. The UAAL is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at July 1, 2014 was 24 years.

SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014

NOTE 9 - CLEAN WATER STATE REVOLVING FUNDS

Beginning in 2007, the Sewerage System received funding for Sanitary Sewer System Improvements through the Clean Water State Revolving Fund. The amount of funding for the project has been revised from \$24,800,000 to \$19,988,683, the final cost of the project and represents the total funds drawn on the loan. The loan is payable at \$99,055 monthly until February 28, 2034 at 1.78%. The project was completed on March 1, 2014. Principal paid on the loan during the year ended June 30, 2014 totaled \$277,239.

Grant/loan funds received during the year ended June 30, 2014 totaled \$329,317.

NOTE 10 - CHANGE IN ACCOUNTING PRINCIPLES AND PRIOR PERIOD ADJUSTMNETS

During 2014, the Systems implemented GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. Under this standard, amounts previously capitalized as bond issuance cost are now expensed when incurred. As such, the opening fund balances have been adjusted to this change as follows:

	<u>Water System</u>	<u>Sewerage System</u>
Net position, beginning of the year, as previously presented	\$ 20,005,079	\$20,889,692
Implementation of GASB Statement No. 65 which expenses bond issue costs as incurred. To reduce net position for amount of unamortized bond issue costs at July 1, 2013.	<u>(60,068)</u>	<u>(37,189)</u>
Net position, beginning of year, as restated	<u>\$ 19,945,011</u>	<u>\$20,852,503</u>

In June 2012, GASB issued Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*, and Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. Statement No. 67 effective for fiscal years beginning after June 15, 2013, revises existing standards of financial reporting by state and local government pension plans and will be adopted by the pension plan itself. Statement No. 68 will affect the government that participate as employers in these plans and is effective for fiscal year beginning after June 15, 2014. For governments to adopt Statement No. 68, the underlying pension plans must first adopt Statement No. 67. The objective of Statement No. 68 is to improve accounting and financial reporting by state and local governments for pensions. These pension standards include significant changes on how governmental employers will report liabilities related to pension obligations. Management is currently evaluating the impact that the adoption of Statement No. 68 will have on the Systems' financial statement.

SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS
SCHEDULE OF FEDERAL AND STATE FINANCIAL ASSISTANCE
FOR THE YEAR ENDED JUNE 30, 2014

Program Name	CFDA	Grant Period	Grant Award	Contract Number	Receivable (Deferred) July 1, 2013	Grant Receipts	Grant Expenditures/ Uses	Receivable (Deferred) June 30, 2014
FEDERAL FINANCIAL ASSISTANCE PROGRAMS:								
Capitalization Grant for Clean Water State Revolving Funds	66.458	to 4/5/2013	\$ 24,800,000	CWSRF 2007-206	\$ -	\$ -	\$ -	\$ -
CDBG Sewer Rehabilitation	14.228	10/21/10-9/30/15	\$ 450,000	GG-1137662-00	-	(157,469)	157,469	-
					-	(157,469)	157,469	-
STATE FINANCIAL ASSISTANCE PROGRAMS:								
Capitalization Grant for Clean Water State Revolving Funds	-	to 4/5/2013	\$ 24,800,000	CWSRF 2007-206	-	(329,317)	329,317	-
Total Federal and State Financial Assistance					\$ -	\$ (486,786)	\$ 486,786	\$ -

Basis of Presentation:

Note 1: The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance summarizes the expenditures of Shelbyville Power, Water & Sewerage Systems under programs of the federal and state governments for the year ended June 30, 2014. The schedule is presented using the accrual basis of accounting.

See accompanying accountants' report.

STATISTICAL INFORMATION

**SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS
SCHEDULE OF UTILITY RATES IN FORCE AND AVERAGE NUMBER OF CUSTOMERS
JUNE 30, 2014**

Unaudited – See Accompanying Accountants' Report

ELECTRIC SYSTEM:

SCHEDULE FOR RESIDENTIAL RATES

CUSTOMER CHARGE	\$10.61
ENERGY CHARGE	\$0.09842 per KWH
FIRST 1000 KWH PER MONTH	\$109.03

SCHEDULE FOR COMMERCIAL RATES

SCHEDULES GSA (LESS THAN 50 KW)

IF CUSTOMER'S CURRENTLY EFFECTIVE CONTRACT DEMAND, IF ANY, OR ITS HIGHEST BILLING DEMAND DURING THE LATEST 12-MONTH PERIOD IS NOT MORE THAN 50 KW AND THE CUSTOMER'S MONTHLY ENERGY TAKINGS FOR ANY MONTH DURING SUCH PERIOD DO NOT EXCEED, 15,000 KILOWATT HOURS:

CUSTOMER CHARGE	\$15.77
ENERGY CHARGE	\$0.10876 per KWH

SCHEDULE FOR COMMERCIAL/INDUSTRIAL RATES

SCHEDULES GSA (FROM 50 KW TO 1000 KW)

IF CUSTOMER'S CURRENTLY EFFECTIVE CONTRACT DEMAND, IF ANY, OR ITS HIGHEST BILLING DEMAND DURING THE LATEST 12-MONTH PERIOD IS GREATER THAN 50 KW BUT NOT MORE THAN 1000 KW AND THE CUSTOMER'S MONTHLY ENERGY TAKINGS FOR ANY MONTH DURING SUCH PERIOD EXCEED 15,000 KILOWATT HOURS:

CUSTOMER CHARGE	\$46.20
DEMAND CHARGE:	
FIRST 50 KW PER MONTH	NO CHARGE
OVER 50 KW PER MONTH	\$12.88 per KW
ENERGY CHARGE:	
FIRST 15,000 KWH PER MONTH	\$0.11024 per KWH
OVER 15,000 KWH PER MONTH	\$0.06752 per KWH

COMMERCIAL/INDUSTRIAL RATES

GSA3 (Greater than 1000 KW Contract or Highest 12 Month Measured KW greater than 1000 KW but Measured KW for month is less than 1000 KW)

CUSTOMER CHARGE	\$163.67
DEMAND CHARGE	
FIRST 1000 KW	\$11.68 per KW
OVER 1000 KW	\$11.79 per KW
ENERGY CHARGE	
ALL KWH	\$0.07089 per KWH

**SHELBYVILLE POWER, WATER & SEWERAGE SYSTEMS

Unaudited – See Accompanying Accountants' Report

ELECTRIC SYSTEM (Continued):

**GSA3 (Greater than 1000 KW Contract or Highest 12 Month Measured KW greater than 1000 KW but Measured KW for month is greater than 1000 KW)
(Must be eligible for Small Manufacturing Credit)**

CUSTOMER CHARGE	\$163.67
DEMAND CHARGE	
FIRST 1000 KW	\$10.30 per KW
OVER 1000 KW	\$10.16 per KW
ENERGY CHARGE	
ALL KWH	\$0.06549 per KWH

MSB (Greater than 5000 KW Contract or Highest 12 Month Measured KW greater than 5000 and SIC is 20-39 but Measured KW for month is less than 5000 KW)

Manufacture Rates

CUSTOMER CHARGE	\$1,850.00
DEMAND CHARGE	
ALL KW	On-Peak \$16.84 per KW Off-Peak \$ 4.07 per KW
ENERGY CHARGE	
FIRST 425 KWH/KW	On-Peak (all KWH) \$0.08571 per KWH Off-Peak \$0.05051 per KWH (Example 425 * KW compared to measured KWH)
NEXT 195 KWH/KW	Off-Peak \$0.03136
ADDITIONAL KWH	Off-Peak \$0.01510

Facilities Rental (Delivery Point less than 46 KV)	\$0.93 per KW
Equipment Rental	1.5% of Installed Cost per month

SMSB (Greater than 5000 KW Contract or Highest 12 Month Measured KW greater than 5000 KW and SIC is 20-39 but Measured KW for month is less than 5000 KW)

Manufacture Rates

CUSTOMER CHARGE	\$1,850.00
DEMAND CHARGE	
ALL KW	\$19.19 per KW
ENERGY CHARGE	
ALL KWH	\$0.04506 per KWH

Facilities Rental (Delivery Point less than 46 KV)	\$0.93 per KW
Equipment Rental	1.5% of Installed Cost per month

Water Audit Report for: **Shelbyville Power, Water & Sewerage System**

Reporting Year: **2014** **7/2013 - 6/2014**

Please enter data in the white cells below. Where available, metered values should be used; if metered values are unavailable please estimate a value. Indicate your confidence in the accuracy of the input data by grading each component (1-10) using the drop-down list to the left of the input cell. Hover the mouse over the cell to obtain a description of the grades

All volumes to be entered as: MILLION GALLONS (US) PER YEAR

WATER SUPPLIED

<< Enter grading in column 'E'

Volume from own sources:	<input type="text" value="9"/>	<input type="text" value="1,370,069"/>	Million gallons (US)/yr. (MG/Yr)
Master meter error adjustment (enter positive value):	<input type="text" value="4"/>	<input type="text" value="0.020"/>	under-registered MG/Yr
Water imported:	<input type="text" value="n/a"/>		MG/Yr
Water exported:	<input type="text" value="n/a"/>		MG/Yr
WATER SUPPLIED:		1,370,089	MG/Yr

AUTHORIZED CONSUMPTION

Billed metered:	<input type="text" value="9"/>	<input type="text" value="1,050,320"/>	MG/Yr
Billed unmetered:	<input type="text" value="n/a"/>		MG/Yr
Unbilled metered:	<input type="text" value="7"/>	<input type="text" value="35,808"/>	MG/Yr
Unbilled unmetered:	<input type="text" value="7"/>	<input type="text" value="50,058"/>	MG/Yr

for help using option buttons below

Pcnt: Value:

Use buttons to select percentage of water supplied OR value

AUTHORIZED CONSUMPTION: **MG/Yr**

WATER LOSSES (Water Supplied - Authorized Consumption)

MG/Yr

Apparent Losses

Unauthorized consumption: **MG/Yr**

Default option selected for unauthorized consumption - a grading of 5 is applied but not displayed

Customer metering inaccuracies: **MG/Yr**

Systematic data handling errors: **MG/Yr**

Systematic data handling errors are likely, please enter a non-zero value; otherwise grade = 5

Apparent Losses: **MG/Yr**

Pcnt: Value:

Choose this option to enter a percentage of billed metered consumption. This is NOT a default value

Real Losses (Current Annual Real Losses or CARL)

Real Losses = Water Losses - Apparent Losses: **MG/Yr**

WATER LOSSES: **MG/Yr**

NON-REVENUE WATER

NON-REVENUE WATER: **MG/Yr**

= Total Water Loss + Unbilled Metered + Unbilled Unmetered

SYSTEM DATA

Length of mains:	<input type="text" value="10"/>	<input type="text" value="202.0"/>	miles
Number of active AND inactive service connections:	<input type="text" value="9"/>	<input type="text" value="9,228"/>	
Connection density:		<input type="text" value="46"/>	conn./mile main
Average length of customer service line:	<input type="text" value="7"/>	<input type="text" value="27.0"/>	ft. (pipe length between curbstop and customer meter or property boundary)
Average operating pressure:	<input type="text" value="7"/>	<input type="text" value="74.0"/>	psi

COST DATA

Total annual cost of operating water system:	<input type="text" value="10"/>	<input type="text" value="\$4,153,405"/>	\$/year
Customer retail unit cost (applied to Apparent Losses):	<input type="text" value="6"/>	<input type="text" value="53.77"/>	\$/1000 gallons (US)
Variable production cost (applied to Real Losses):	<input type="text" value="10"/>	<input type="text" value="52,903.70"/>	\$/million gallons

PERFORMANCE INDICATORS

Financial Indicators

Non-revenue water as percent by volume of Water Supplied:	<input type="text" value="23.34"/>
Non-revenue water as percent by cost of operating system:	<input type="text" value="23.11"/>
Annual cost of Apparent Losses:	<input type="text" value="\$139,553"/>
Annual cost of Real Losses:	<input type="text" value="\$571,698"/>

Operational Efficiency Indicators

Apparent Losses per service connection per day:	<input type="text" value="10.99"/>	gallons/connection/day
Real Losses per service connection per day*:	<input type="text" value="58.45"/>	gallons/connection/day
Real Losses per length of main per day*:	<input type="text" value="N/A"/>	
Real Losses per service connection per day per psi pressure:	<input type="text" value="0.79"/>	gallons/connection/day/psi
Unavoidable Annual Real Losses (UARL):	<input type="text" value="76.46"/>	million gallons/year
From Above, Real Losses = Current Annual Real Losses (CARL):	<input type="text" value="196.89"/>	million gallons/year
Infrastructure Leakage Index (ILI) (CARL/UARL):	<input type="text" value="2.57"/>	

* only the most applicable of these two indicators will be calculated

WATER AUDIT DATA VALIDITY SCORE:

***** YOUR SCORE IS: 79 out of 100 *****

A weighted scale for the components of consumption and water loss is included in the calculation of the Water Audit Data Validity Score

PRIORITY AREAS FOR ATTENTION:

Based on the information provided, audit accuracy can be improved by addressing the following components:

- 1: Master meter error adjustment
- 2: Volume from own sources
- 3: Unauthorized consumption

INTERNAL CONTROL AND COMPLIANCE SECTION

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Board of Directors
Shelbyville Power, Water & Sewerage Systems
Shelbyville, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Shelbyville Power, Water & Sewerage Systems, as of and for the year ended June 30, 2014, and the related notes to the financial statements and have issued our report thereon dated October 28, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Shelbyville Power, Water & Sewerage Systems' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Shelbyville Power, Water & Sewerage Systems' internal control. Accordingly, we do not express an opinion on the effectiveness of Shelbyville Power, Water & Sewerage Systems' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Shelbyville Power, Water & Sewerage Systems' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standard*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Honolulu Police Department
